QUICK CONNECT

Quick Connect is our unassisted audio conferencing suite. You can start a password protected conference with no reservation from anywhere at any time. During that conference you will have touch tone commands to start recordings, mute and unmute participants and much more. If you would like even more control you can use our convenient web interface, Live Conference Viewer, to exercise control over individual lines

FLEXIBLE SOLUTIONS FOR YOUR ORGANIZATION

Quick Connect allows you all of the tools of our operator assisted conferencing but with the convenience of being able to schedule a meeting at any time. This allows your business to have impromptu meetings without having to wait for us to hand out passcodes. All while keeping the security and reliability of our assisted conferencing. Quick Connect has the latest encryption technology and industry leading security features.

We invite you to [contact us](#) so we can show you how to bring your business into the future. With the latest in [Audio Conferencing](#) technology and a team of [dedicated](#) telecom advisors to [guide you](#) from start to finish.
